GENÈVE

Subject: A special format for SwissExpo in 2021

SwissExpo 2021, originally scheduled for 13 to 16 January, will have no exhibitors or visitors. However, the cattle show should be held at Palexpo in the presence of Swiss and foreign cattle breeders only and will be streamed from 24 to 27 February 2021.

Due to Covid, SwissExpo will not take place as planned in January 2021. The organising committee is currently developing a digital platform and is considering broadcasting the cattle show on the net from 24 to 27 February. No exhibitors or visitors in 2021 and a deadline in mid-January to decide whether or not to maintain the competition.
